

# **At Home, Looking for Something Fun to Do?**

## **Backyard Bird Count**

The Great Backyard Bird Count (GBBC) takes place the Friday through Monday February 12th-15th, the weekend of Valentine's Day. It's an annual citizen-science project that asks novice bird watchers and lifelong birders to collect a few days of information. Participants are asked to count birds for as little as 15 minutes (or as long as they wish) on one or more days of the four-day event.

**report sightings online at <http://birdcount.org>**
